Subject: New mandates concerning preventative health services to be covered by insurance plans
Date: Thursday, September 29, 2011 6:26:54 PM

I strongly oppose the proposed mandates! pregnancy is not a disease to be prevented and contraception should not be mandated "preventative health services." Respect for conscience is foundational to a just society. At a minimum, a conscience protection should be granted for all employers, insurers, and policy issuers with moral, ethical and religious objections.
